**Uncontrolled Residential Electricity** is an electricity supply that has no restriction on when or how the electricity is used. Most customers with gas water heating will be on this pricing option.

**Composite Residential Electricity** is similar to the below controlled rate but is controlled by one meter rather than separate meter wired to appliance.

**Controlled Residential Electricity** means that part of the customers electrical load, normally their water heating can be controlled for a small period during peak times for appliances that are permanently wired to a separate controlled meter
